

## **Postdoc opportunities in stem cell and cancer biology**

Postdoctoral fellow positions are available for highly motivated young scientists to study metabolic regulation of cell fates in stem cells and cancer. For more details on our research program, please visit the lab website <https://cellfate.infront.kyoto-u.ac.jp/>.

Successful candidate should hold a doctoral-level degree, at the time of the hire, in basic, health or medical science, or a related field. Excellent written and spoken communication skills are required. Preferred qualifications include solid background of biochemistry, cancer and cellular biology and/or genetics. Applicants should send a CV and the names and contact information of two references to:

Takahiro Ito, Ph.D.  
Professor, Division of Cell Fate Dynamics and Therapeutics  
Institute for Frontier Life and Medical Sciences  
Kyoto University, Kyoto, Japan
